ROCHE BOBOIS

SLEEK INTERIORS FOR THE COMPLETE CONTEMPORARY HOME

Does your living space embrace the French connection? With Paris based home furnishing company Roche-Bobois it can. Roche-Bobois is a global leader in design and distribution of evolutionary home furnishings. As the international company opens a new store each month, the design team is challenged to produce an invigorating collection that is released every six months to their consumer who demands the most recent contemporary inspiration. There are three merchandise styles offered at Roche-Bobois, Les Contemporains, Les Voyages, and Les Provinciales.

Chapter 1, The L.C. Commonly known as the Les Contemporains. We are the trendsetters. We desire provocative color and need our atmosphere to obtain conspicuous furniture pieces that inspire the unknown. We like to be bold but simple. Having shape is necessary only in a non-uniform pattern. This is most evident as the details start to unfold in a room. To achieve perfection is to accept a space where there is no perfection. Roche-Bobois L.C. collection understands this luxury.

Chapter 2, L.V. (not Louis Vuitton but The Les Voyages) Adventurous, we are. We dream to experience the exotic escapes. Timeless travel is how we accumulate culture. We hold dearly a natural awareness for earthly creations. Water, earth, wind, and fire combined create a height of harmony in the cosmopolitan horizons of life. Roche-Bobois understands the value of natural textiles and raw materials for the L.V. consumer.

Chapter 3, L.P. Les Provinciales, we know charm when it is presented to us. Sinking into fantasy is our reality. We rewind our mind, embracing the past and engaging in the future. We elevate as mystery is defined. The floral symphony awakens our five senses that encourage Victorian Chic throughout our residency. Roche-Bobois, of French descent, applies the soft craftsmanship and handmade application of this collection's merchandise to today's lifestyle.

Avant-guard, going global, or haute couture Roche-Bobois completes one or all collections in a room as its merchandise designs a living space to embrace the French connection. Enlighten, emerge, and evolve in your home with Roche-Bobois.
